

Need drapery hardware?

We source drapery hardware from reputable companies such as Canadian Drapery Hardware, Drummond Window Fashions, and George N. Jackson Limited.

Need a handyman to install hardware?

We install most Roman blinds into wooden window frames. Should it be necessary to install your blinds or any drapery hardware into drywall or concrete, we recommend that you use the services of a qualified professional. ([See Resources](#) for Installers with whom we are proud to work.)

We can also supervise the installation by a handyman if required.
